

# TREMCO EMERGENCY PRODUCTS

[www.tremcoemergencyproducts.com](http://www.tremcoemergencyproducts.com)

March 23, 2020

To Our Valued Customers,

Tremco Products has been identified as a part of the Critical Business Infrastructure under the CISA's Critical Infrastructure Sectors and the Commonwealth of Massachusetts, COVID-19 Essential Services in support of the national, state and local emergency response supply chain. As a result, our facilities will remain open during the COVID-19 pandemic until further notice. Tremco prides itself with on-time order fulfillment. To that end, we have an abundance of inventory and we are not expecting any supply chain issues.

We want to assure that we are here, as always, to protect your fleet. We wish you the best of health and safe times during these upcoming weeks. As a community, we will get through this together.

Stay Safe,

*Mark Tremblay*

Tremco Products, Inc.

President
